Purpose

Intuisco LTD promotes production and service delivery policies that balance the needs for economic development and value creation, inherent to its business activities, with the requirements for environmental protection, social responsibility, and the security of information and data. It is also committed to complying with current legislation, encouraging the spread of a culture that respects legal principles.

Intuisco LTD's commitment is expressed through the development and implementation of an Integrated Management System, actively involving the entire corporate structure so that each function contributes, according to its responsibilities, to achieving the management system's objectives and to promoting:

- Data and information security;
- Continuous improvement;
- Respect and enhancement of people;
- Innovation and change;
- Transparent communication and worker participation.

The strategies underpinning the company's business development are based on its values and corporate mission, which also influence the behavioural guidelines for collaborators, with the aim of achieving the best possible results through the sharing of challenges and opportunities.

In order to implement its Policy, Intuisco LTD commits to:

- Applying risk analysis principles to all operational and decision-making processes;
- Promoting and disseminating a culture of continuous improvement aimed at product/service compliance and quality, customer satisfaction, and the protection of the environment, health and safety, and information security;
- Involving, motivating, raising awareness, and enhancing people through professional training, operational instruction, and qualification on specific critical processes;
- Ensuring active compliance with applicable legal regulations within the scope of the company's management system, with the objective of continually improving working conditions for personnel, including suppliers and stakeholders, in terms of confidentiality, integrity, availability, and information security;
- Ensuring the security of provided services, in terms of confidentiality, integrity, and availability of information and data, based on policies for the correct and secure use of IT technologies and systematic risk assessment, adopting a set of measures, controls, and procedures for the proper processing of personal data;
- Promoting the sustainable use of resources, the safeguarding of biodiversity and ecosystems, adaptation to climate change, and mitigation of its impacts, by providing prepared, efficient human resources supported by adequate infrastructure resources.

Intuisco LTD annually defines, during the Management Review, its improvement objectives on which the effectiveness and usefulness of its Management System are assessed, and allocates adequate means and resources to achieve them.

To comply with this Policy and achieve the defined objectives, Intuisco LTD considers it essential to promote teamwork and foster the constructive engagement of all individuals within the organisation.
